Subject: RE: question on Arkwood FYR site inspection and interviews
Date: Wednesday, July 01, 2015 1:36:28 PM

Hello Stephen,

After checking with the others, either the week before or the week after is fine with us; we do ask that it be scheduled for Tuesday through Thursday.

I am copying management to let them know about the training program.

Thanks,

Mark Moix

Subject: question on Arkwood FYR site inspection and interviews

Hi Mark,

I just found out that the national EPA NARPM Training Program will be held on October 19-23. I am part of an EPA forum that is part of the training program.

Can we re-schedule the Arkwood FYR site inspection and interviews to either the week before or week after? Either will work for me.

Also, let me know if you or your mgmt have interest in attending this training program. I know in previous years, EPA HQ have funded state representatives to attend.

Thanks,

Stephen L. Tzhone

Subject: delDRAFT NARPM Training Program Agenda

9595591

Good Morning Everyone,

Attached is a draft NARPM Training Program Agenda FYI. As captured in Gary Turner's attached e-mail, this information is still draft, but it will provide you with a flavor of the courses that are being offered this year. Also, as reflected in his e-mail, NARPM is tentatively scheduled to occur (pending EPA-HQs Senior Management approval) the week of October 19, 2015 in Ashburn, VA.

This is the latest information that I have, and should any changes occur, you will be notified. Have a pleasant day everyone.

Ursula Lennox
Remedial Project Manager

Subject: DRAFT NARPM Training Program Agenda

This message is being sent bcc to the NARPM Council members to prevent accidental reply-all messages. A list of the recipients is included at the end of this message.

The National Association of Remedial Project Managers (NARPM) Co-Chairs continue to plan for the 24th NARPM Training Program. Pending senior management approval, the goal is to hold the training during the week of October 19, 2015 in Ashburn, VA which is just outside the Washington, D.C. Metro Area about ten miles from Dulles International Airport. For your planning purposes, please find attached to this email the draft program agenda for the week and a summary of all course abstracts to date. Please understand the program agenda is still draft and subject to change based on instructor conflicts (as new instructors continue to be confirmed) and direction from senior management. The NARPM Co-Chairs have worked very hard to select courses and sessions relevant to the training needs of the RPMs and other members of the remedial program. In 2015, NARPM plans to offer at least 50 training courses and sessions including six courses that meet the Contracting Officer Representative (COR) training requirements and two courses that meet the EPA Order 3500.1 Inspector Credential requirements. NARPM also plans to offer once again individual spokesperson coaching sessions and individual SEMS sessions throughout the training week.

We look forward to seeing everyone at the 2015 NARPM Training Program!
